NIAGARA
SHAKE

Environmentally friendly synthetic slate roofing tiles proudly made in the USA

Pioneers of sustainable roofing since 1993

Majestic Niagara Shake

Majestic Niagara Shake is a natural-looking $\frac{3}{4}$ " thick, 22" long, synthetic shake roofing tile produced in an even blend of 7", 8", 9" and 10" widths. The added length allows Majestic Niagara Shake to be installed at a 10" exposure, maintaining 2" headlap throughout. An additional 9" exposure option allows for the creation of unique looks using a staggered installation. The Niagara design consumes less raw material, reduces roof load and lowers installation labor by 15%. Unlike other synthetic shake, Majestic Niagara Shake is manufactured from 80% post-industrial recycled materials. EcoStar roofing tiles, including the larger Majestic Niagara Shake, provide longlasting durability, superior protection against extreme weather conditions and 50 years of warranty coverage. Available in 11 standard colors, Majestic Niagara Shake offers endless opportunity to showcase the beauty of natural shake at a fraction of the cost.

Majestic Niagara Shake - Standard Color Palette

Note: Sample pieces, photographs or color samples may not accurately represent the true color level or variations of color blends that may appear on a roof. Before installation, ten tiles or so should be laid out and reviewed for conformity to desired color level. If color levels are unsatisfactory, advise your dealer before proceeding with installation. Colors and specifications subject to change without notice. EcoStar is not liable for color variations or shading. Tiles must be randomly blended for best results. Limited warranties carry terms and conditions. *Significant property insurance discounts may be available when upgrading or building a roof to protect against hail damage in regions where severe weather is common. EcoStar tiles meet or exceed industry standards for Impact Resistance. Contact your insurance provider for details.

Advantages

- The look of traditional cedar shake without extensive maintenance
- Easy application keeps installation costs down
- Significant property insurance discounts may be available when upgrading or building a roof to protect against hail¹

Architectural Flexibility

- The $\frac{3}{4}$ " thick tiles create the natural appearance of traditional cedar shake
- Available in 11 standard colors
- Packaged in an even blend of 7", 8", 9" and 10" widths

Strength & Durability

- Provides superior durability and protection from extreme weather conditions that include wind, hail, driving rain and heavy snow
- Significant life cycle savings

Warranty Options

- 50-Year Limited Material Warranty available
- 50-Year Gold Star Labor & Material Warranty available
- 110 mph Wind Warranty available

Environmental Sustainability

- Manufactured with 80% post-industrial recycled materials

Technical Information

- UL listed Class C fire resistance (UL 790)
- UL Class 4 impact resistance (UL 2218)
