

PRODUCT GUIDE

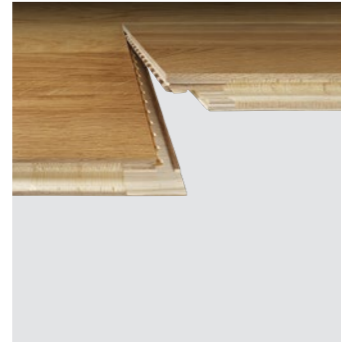

QUALITY IN WOOD SINCE 1857

Wood is the most eco-friendly, beautiful and versatile flooring material there is. This is why we only work with wood. Few materials can add as much warmth and atmosphere as wood. It softens the most minimalist designs, while accentuating the mood of a more traditional interior. Although trends may come and go, quality and true style never goes out of fashion. That's why a wood floor from Kährs will always be the perfect choice.

Kährs is the oldest wood floor manufacturer in the world with a history dating back to 1857. Meanwhile, it is also the most innovative with a tradition of leading the development of the modern parquet floor.

GAP FREE

When Kährs launched Woodloc® in 2000 – the first glue-free joint system in the world – it revolutionized the wood flooring industry. This ingenious joint system locks the boards together mechanically, creating a completely gap-free floor.

BEST CONSTRUCTION

Compared to a traditional solid wood floor, our patented construction is 75% more stable. A Kährs floor resists warping, buckling and cracking, even as temperature and humidity change throughout the seasons.

MORE THAN A BEAUTIFUL SURFACE

Whichever surface treatment you choose for your Kährs floor, you can be sure that it will both enhance and protect the natural beauty of the wood. All Kährs surface treatments are naturally free from solvents, formaldehyde, and isocyanate.

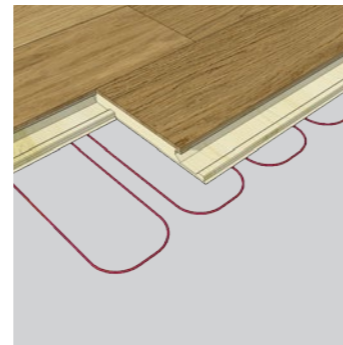

ENDLESS DESIGN VARIATIONS

Whatever the size of room or interior style, there's a Kährs floor that will enhance the space. Our wood floors come in many wood species, sizes, patterns, and finishes.

SENSE AND SENSIBILITY

Brushed, hand-scraped, bevelled, silky smooth, or matte. Each Kährs plank is unique and individually treated according to its own unique composition of knots and graining. The result is a dynamic surface that transforms in different lights and depending on which angle it's viewed from. A Kährs floor never fails to amaze and feed the senses!

WORKS WELL WITH UNDERFLOOR HEATING

Kährs floors work perfectly well combined with underfloor heating. One reason is the strong Woodloc joints, another the stable and well-balanced construction of the board.

Kährs Supreme

SUPREME QUALITY AND CRAFTSMANSHIP

Using time-honored skills, Kährs combines unrivalled hand-made craftsmanship, outstanding design and the latest production and surface techniques to create a floor of distinction. Unique floors in Oak, Ash, and Beech come to life in an array of designs and finishes, all united by striking, exclusive looks and absolute attention to detail.
